# Retention of Undergraduate Students Fall 2006 to Fall 2007 

## Executive Summary

This report tracks the enrollment patterns of undergraduate students enrolled in the Fall 2006 term. Using the Banner system, students were classified as enrolled, withdrawn, or graduated for Fall 2007. Those classified as graduated received their degrees in Fall 2006, Winter 2006-07, Spring 2007, or Summer 2007. The tables that follow look at four different (but overlapping) cohorts of students: all undergraduates, new freshmen, new freshmen who were provisionally admitted, and new transfer students.

The overall retention rate for undergraduates who did not graduate is approximately seventy-four percent. For new freshmen, the retention rate is $70.1 \%$, down slightly from last year's rate of $70.7 \%$ (unfortunately, comparable numbers are not available for the other cohorts). Alarmingly, the retention rate for Juniors and Seniors is only $76.7 \%$, after adjusting for graduates. These students have the most invested in the university, and their rate should be much higher than the $71.4 \%$ of Freshmen and Sophomores. Additional analysis and study is needed to shed more light on these retention patterns.

## Main Report

This report tracks the enrollment patters of the 1,778 undergraduate students enrolled in Fall 2006 who were classified Freshmen, Sophomores, Juniors, or Seniors. Students who entered in Summer 2007 were counted as new students (either freshman or transfer) in Fall 2006 as well. Thirty-seven postbaccalaureate students from the total undergraduate enrollment of 1,815 have been excluded.

Retention percentages for the various cohorts for Fall 2006 to Fall 2007 are below.

| Cohort | Fall 2006 to <br> Fall 2007 |
| :--- | :---: |
| Undergraduate Students | $73.7 \%$ |
| New Freshmen | $70.1 \%$ |
| Provisional Admit Students | $59.4 \%$ |
| New Transfer Students | $63.1 \%$ |

Of the 1,778 undergraduate students enrolled in Fall 2006:

- $281(15.8 \%$ ) graduated in November 2006, February, May, or August 2007
- 393 (22.1\%) did not return for Fall 2007
- 1,104 (62.1\%) reenrolled for Fall 2007

After adjusting for graduates, the undergraduate retention rate was $73.7 \%$. See Section 1, page 3, for more details.

Of the 261 new freshmen enrolled in Fall 2006:

- $78(29.9 \%)$ did not return for Fall 2007
- 183 (70.1\%) reenrolled for Fall 2007

The retention rate for new freshmen was $70.1 \%$. See Section 2, page 7 for more details.
Of the 32 new provisionally admitted students in Fall 2006:

- $13(40.6 \%)$ did not return for Fall 2007
- 19 (59.4\%) reenrolled for Fall 2007

The retention rate for new provisionally admitted students was $59.4 \%$. See Section 3, page 11 for more details.

Of the 270 new transfer students in Fall 2006:

- 2 (0.7\%) graduated in November 2006, February, May, or August 2007
- 99 (36.7\%) did not return for Fall 2007
- 169 reenrolled for Fall 2007

After adjusting for graduates, the retention rate for new transfers was $63.1 \%$. See Section 4, page 15, for more details.

The four sections of this report focus on the four cohorts listed above. Retention patterns are displayed by gender, ethnicity, minority status, citizenship, test score ranges, high school quartiles, residency (on- or off-campus and county), and college.

Please note that in the tables that follow, "Withdrawn" does not refer to students who have gone through an official withdrawal process with the University. It refers to students who have not graduated and who have not enrolled for the Fall 2007 term.
