

Historical Retention and Graduation Rates Fall 2012

Executive Summary

This report tracks the enrollment patterns of entering new freshmen and transfers, from one year retention rate to six year graduation rate. Included are Freshmen classes beginning in 1995 and Transfer classes beginning in 2002. The transfer classes are broken down by the classification of the transfer at entry – a transfer entering as a freshman will have a very different enrollment pattern than a transfer entering as a senior.

A summary of one year retention rates for the last six entering classes is given below, followed by a summary of the six year graduation rates of the most recent six classes for which data is available (i.e., Fall 2006 is the most recent class for which we have a six year graduation rate). Note that data is unavailable for transfer classes prior to Fall 2002.
