The EADA Survey is not an accounting report. It collects data about revenues and expenses that are similar to data from an income and expense statement. You should not include information about capital assets and related debts. When reporting revenues from institutional support include budgeted dollars that were not spent only if those dollars remained in the athletic department's or team's budget at the end of the year. For example, if a sport is budgeted \$20,000 for the year, and at the end of the year the sport has only spent \$11,000, there is a \$9,000 surplus. If the \$9,000 remained in the athletics department's or team's budget, you should include the \$9,000 in your reported revenues. If, however, the \$9,000 was taken out of the athletics department's or team's budget, do not include the \$9,000 in your reported revenues.

A number of terms used in this survey are EADA-specific. For example, Operating Expenses encompasses specific "game-day" expenses only. The survey user's guide takes you step by step through the survey screens. It was developed in part based on questions directed to the help desk. If you still have questions after consulting the user's guide, please call the help desk toll-free at (888) 233-5421 or e-mail us at eadahelp@westat.com.
