

Profile of New Freshmen Fall 2025 and Fall 2026

This report contains demographic and academic information for new freshmen who entered the University in Fall 2025 and Fall 2026. Information is included on:

Sex	State of Permanent Address	High School Class Quartile
Age	County of Permanent Residence	Program of Study
Minority Status ¹	Religious Affiliation ¹	First-Generation Status
Citizenship Status	Entrance Test Scores	First Major
Racial/Ethnic Group ¹	Full/Part-Time Status	
Country of Citizenship	Average Credit Hour Load	

Please see page 2 for a note on test score (SAT and ACT) statistics.

Data is presented for first-time freshmen by Main Campus (page 3), Online (page 18), and Total class (page 28). Data in the narrative below is for the Total class, both Main Campus and Online.

Fall 2026

The freshmen class of Fall 2025 includes 1,110 students who entered the University in Summer 2026 or Fall 2026. Demographically, fifty percent (553) of the new freshmen are female, and 85.1% (945) are from racial or ethnic minority groups. Students with a Baptist religious affiliation make up 12.9% of the group, a slight increase from last year.

For students with known addresses, 1,046 (94.2%) have Texas as their state of permanent address, representing 64 counties. Students from Harris, Fort Bend, and Brazoria counties make up 76.3% of the class, a decrease over last year.

Among students who reported a high school class ranking, forty-five percent were in the top quartile of their high school graduating classes. The class had a mean score of 1101 for the redesigned SAT and 23 for the ACT examination for those who chose to apply traditionally. Seventeen percent of students declared a major in Nursing, while fifteen percent were Electrical Engineering, and six percent were Psychology.

Fall 2025

The freshmen class of Fall 2025 includes 1,001 students who entered the University in Summer 2025 or Fall 2025. Demographically, fifty-three percent (533) of the new freshmen are female, and 84.5% (846) are from racial or ethnic minority groups. Students with a Baptist religious affiliation make up 12.8% of the group, a decrease from last year.

For students with known addresses, 935 (93.4%) have Texas as their state of permanent address, representing 56 counties. Students from Harris, Fort Bend, and Brazoria counties make up 82.5% of the class, an increase over last year.

Among students who reported a high school class ranking, forty-six percent were in the top quartile of their high school graduating classes. The class had a mean score of 1084 for the redesigned SAT and 23 for the ACT examination for those who chose to apply traditionally. Sixteen percent of students declared a major in Nursing, while just over fourteen percent were Electrical Engineering, and just over six percent were Computer Science.

Test Score Calculations

For students with both an SAT and ACT score, both scores are reported. Additionally, for students with multiple SAT test scores, the highest verbal and math subscores (from any test date) are added to get the student's final SAT score. For Fall 2006, this procedure resulted in an increase of approximately 6 points on the average SAT score, from 1074 to 1080.

Prior to Fall 2007, SAT scores were reported using Recruitment PLUS. Recruitment PLUS converted all ACT scores to an equivalent SAT score, and included the converted scores in the final mean.

1. During census processing, it was discovered that race/ethnicity and religious preference data were not being collected for online students. Efforts are underway to collect this data from students who are missing, but this missing data will skew the totals for populations with a large percentage of online students.

Note:

- Beginning in Fall 2021, a test optional admissions policy was in place where students could decide whether their test scores were used for consideration during the admissions process. These scores represent the students who elected to apply traditionally and submit their test scores for consideration.
- On the redesigned scale, Verbal is now Evidence-Based Reading and Writing. The total score is comprised of the Evidence-Based Reading and Writing (Verbal) and Math sections.
- Although submission of entrance test scores generally is required in the admission process, in each entering class there were a small number of students who were admitted without entrance test scores. Some students take both the SAT and ACT. Therefore, the number of SAT scores plus the number of ACT scores does not equal the total class size.

Note:

- Beginning in Fall 2021, a test optional admissions policy was in place where students could decide whether their test scores were used for consideration during the admissions process. These scores represent the students who elected to apply traditionally and submit their test scores for consideration.
- On the redesigned scale, Verbal is now Evidence-Based Reading and Writing. The total score is comprised of the Evidence-Based Reading and Writing (Verbal) and Math sections.
- Although submission of entrance test scores generally is required in the admission process, in each entering class there were a small number of students who were admitted without entrance test scores. Some students take both the SAT and ACT. Therefore, the number of SAT scores plus the number of ACT scores does not equal the total class size.

Note:

- Beginning in Fall 2021, a test optional admissions policy was in place where students could decide whether their test scores were used for consideration during the admissions process. These scores represent the students who elected to apply traditionally and submit their test scores for consideration.
- On the redesigned scale, Verbal is now Evidence-Based Reading and Writing. The total score is comprised of the Evidence-Based Reading and Writing (Verbal) and Math sections.
- Although submission of entrance test scores generally is required in the admission process, in each entering class there were a small number of students who were admitted without entrance test scores. Some students take both the SAT and ACT. Therefore, the number of SAT scores plus the number of ACT scores does not equal the total class size.
