

Origins of American Constitutionalism

2023-2024 Law & Liberty Lecture Series

The English Bill of Rights

Tuesday, February 13, 2024 - 7:00-8:00pm
Belin Chapel - Houston Christian University

James II became King of England in 1685. He corrupted Parliament, the courts, and the army. He cruelly tortured and murdered his subjects, selling some of them into slavery. After three years, the English people revolted, forced him from the throne, and enacted the English Bill of Rights. Forty-three provisions of the U.S. Constitution come directly from the English Bill of Rights. Join Dr. John Tyler as he brings these startling events to life and explains how they continue to influence our lives today.

Presented by

John Tyler, JD, PhD

Professor of Law and Jurisprudence

Houston Christian University
