# Houston Christian University

How to download and install
HCU fonts from the
Adobe Creative Cloud

1. Open the Adobe Creative Cloud and navigate to the small "f" in the upper right-hand corner, then click on it.

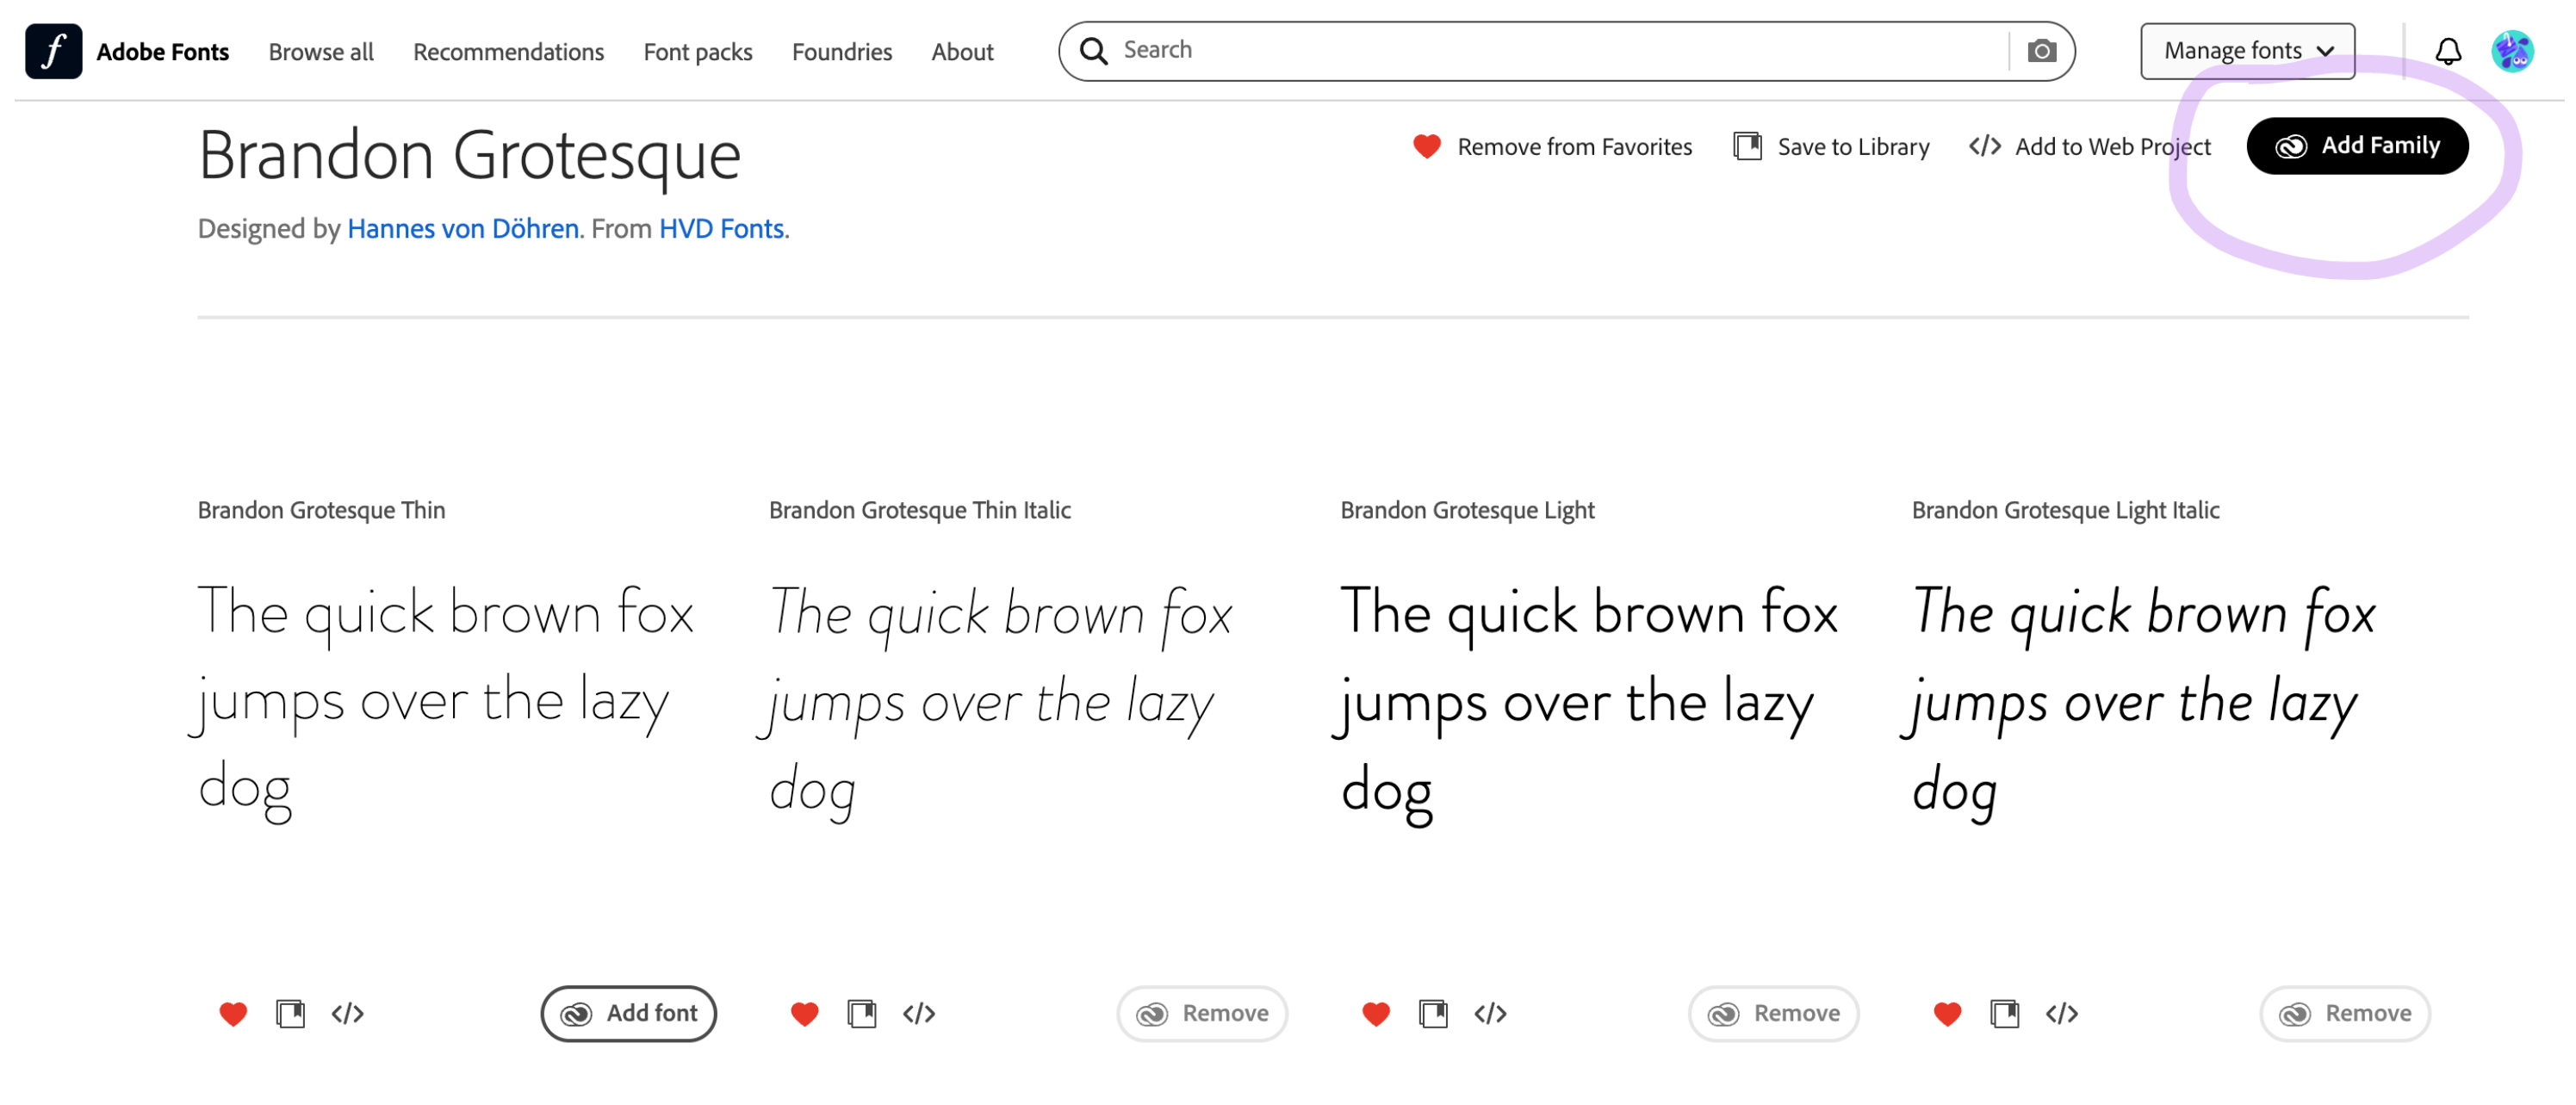

2. When the font menu opens up, find the "Browse more fonts" button in the top right-hand corner. Click on that button.
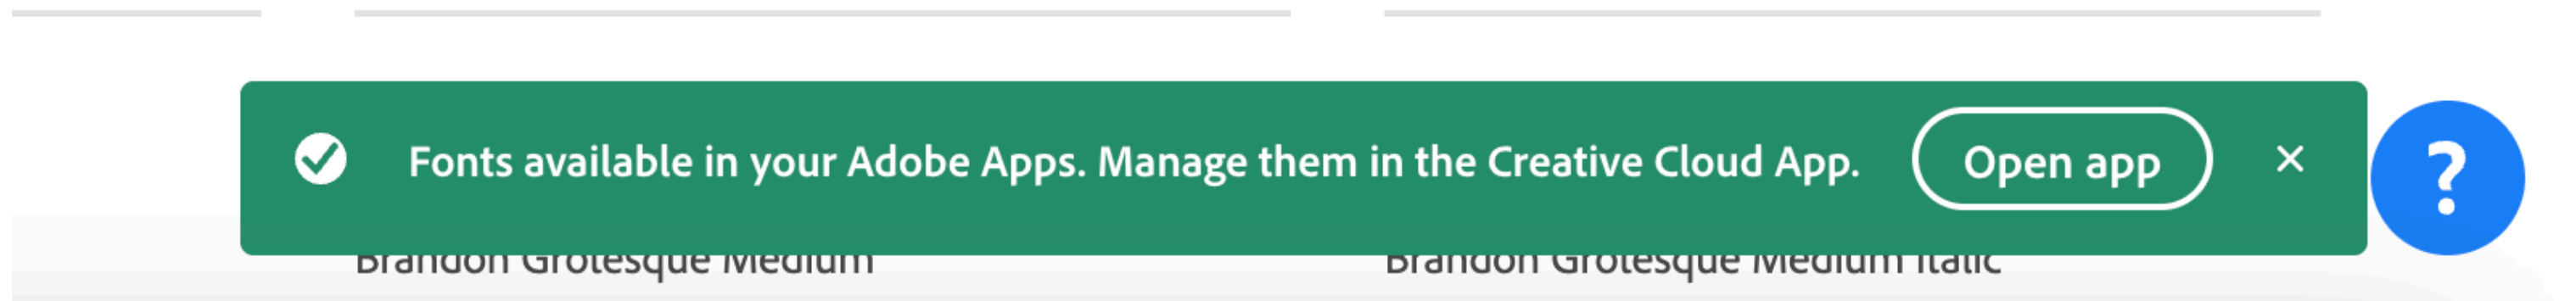

3. This will open a new window in your browser to search for more fonts. Navigate to the search bar and search for any of the university fonts.

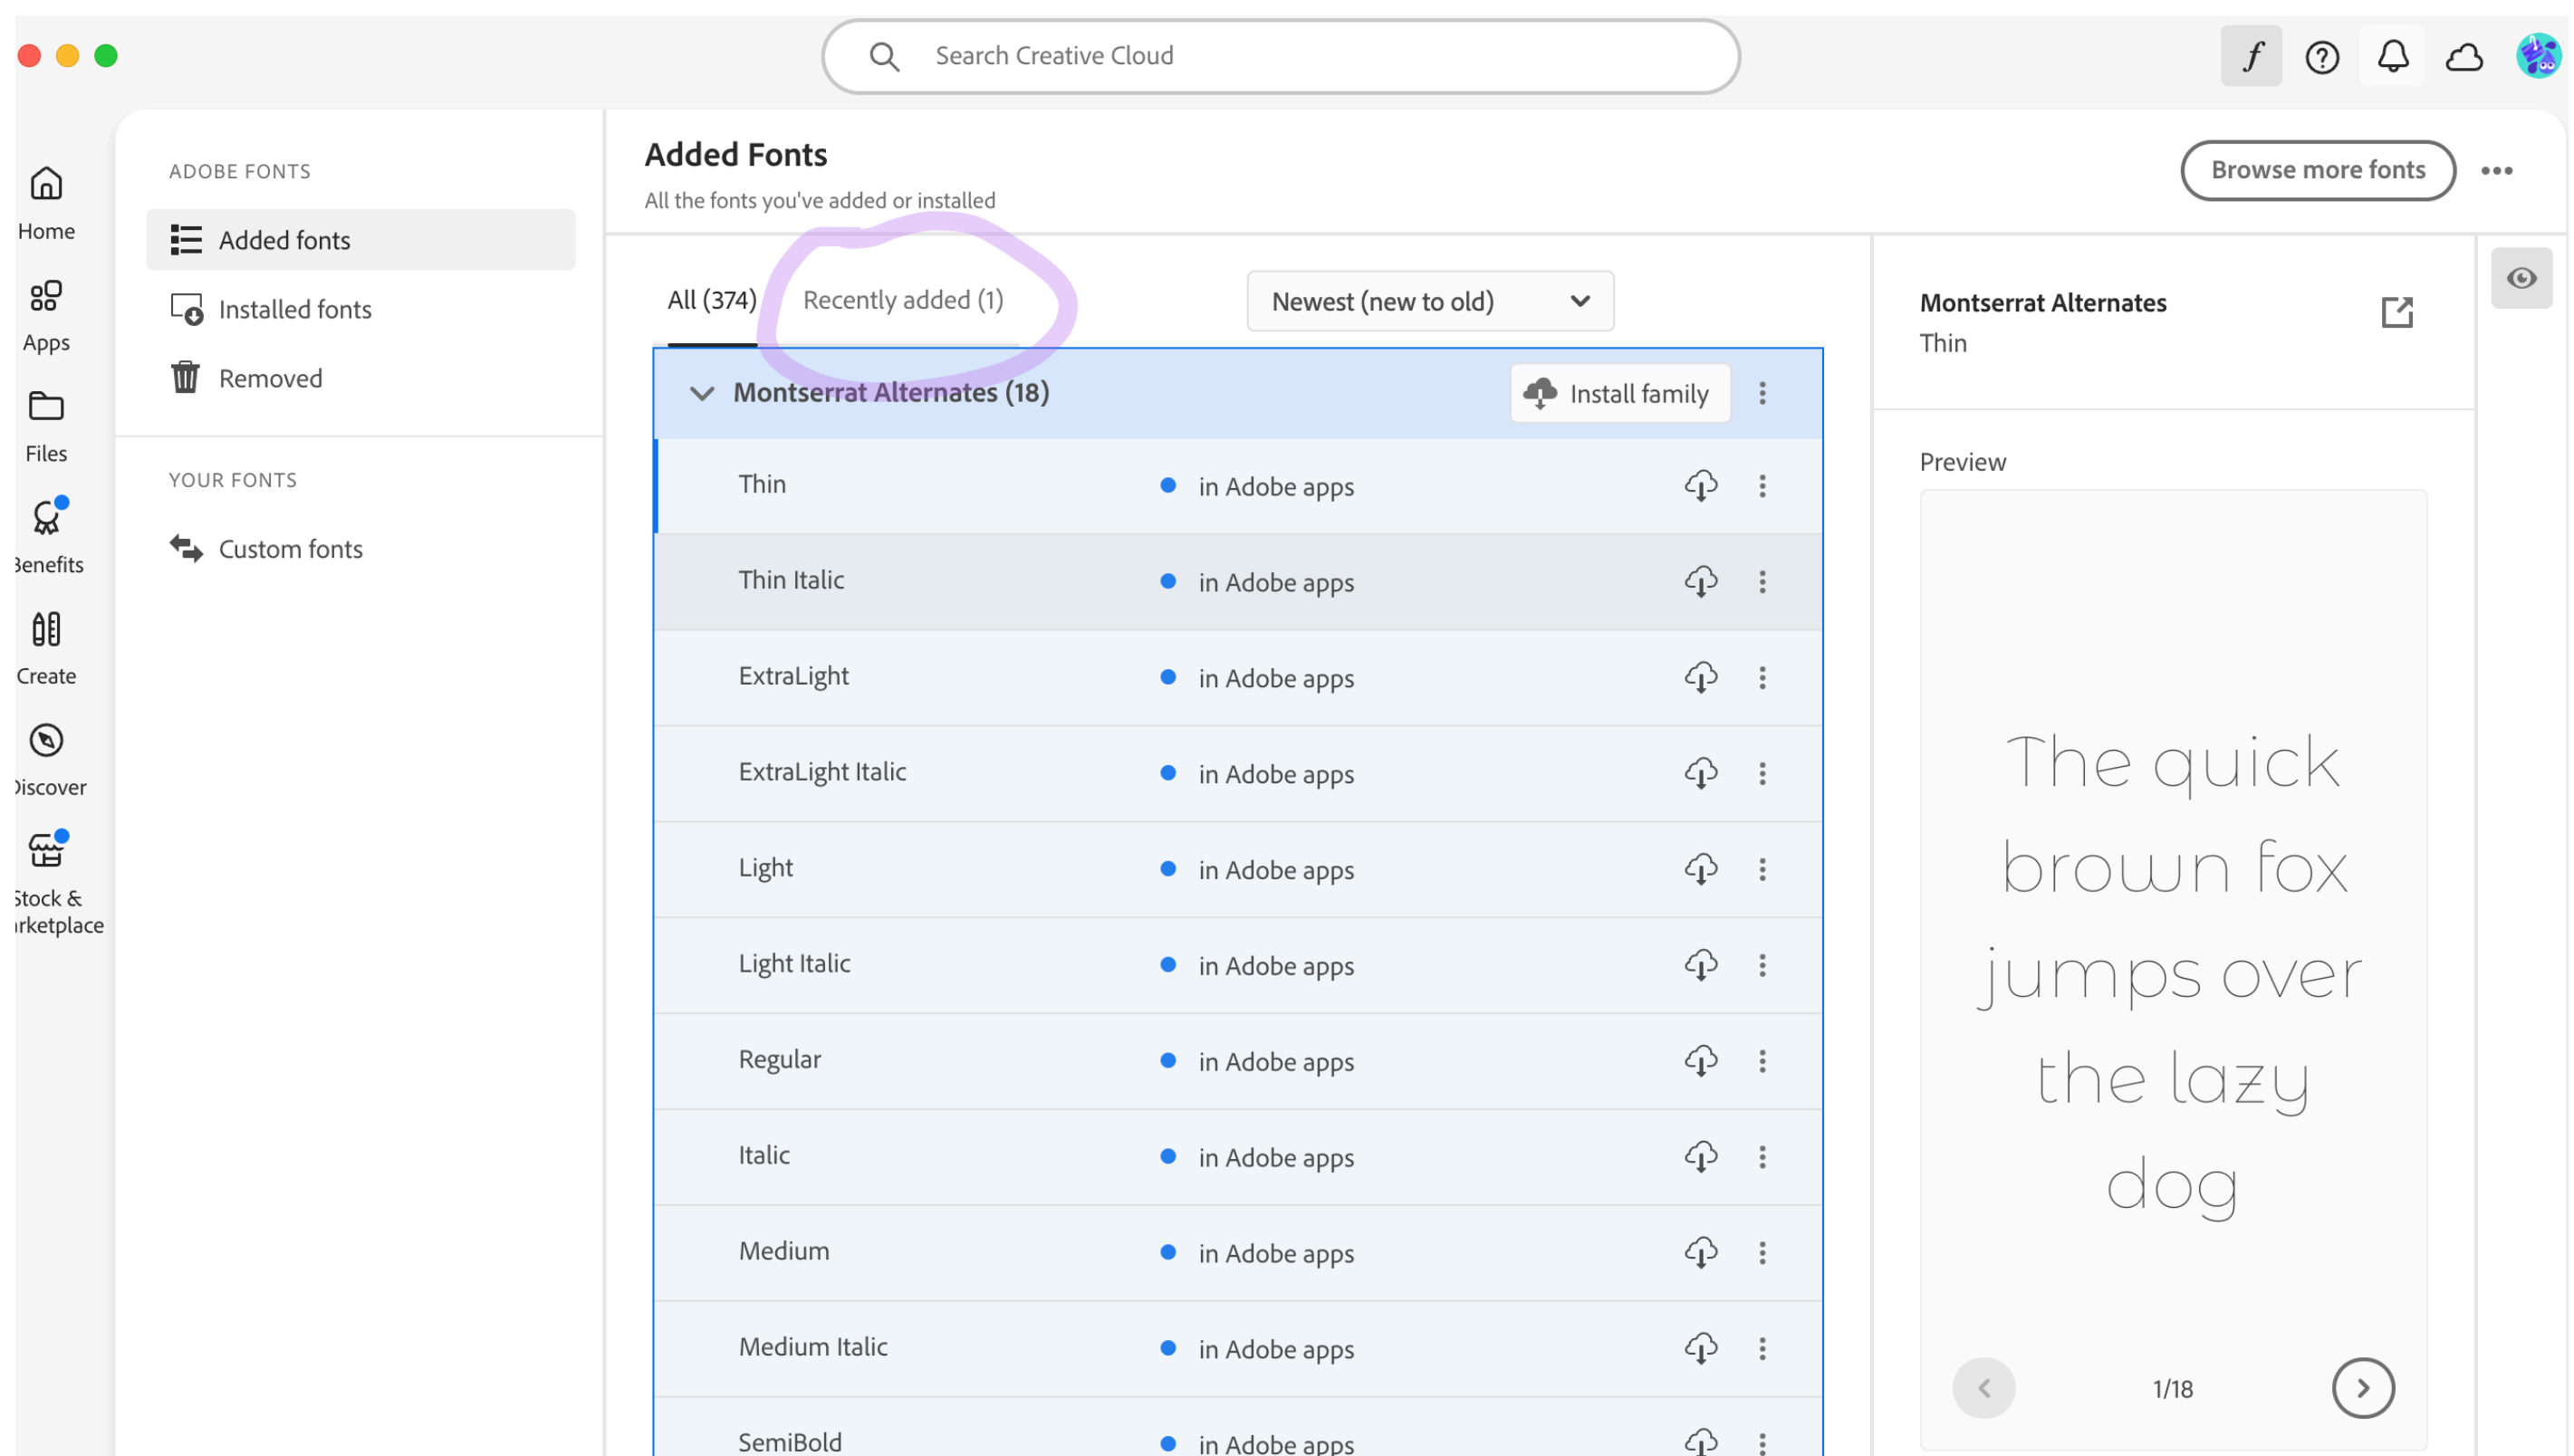

4. After searching, it should pull up the entire font *family.* Click the button labelled "Add Family" in the top right-hand corner.
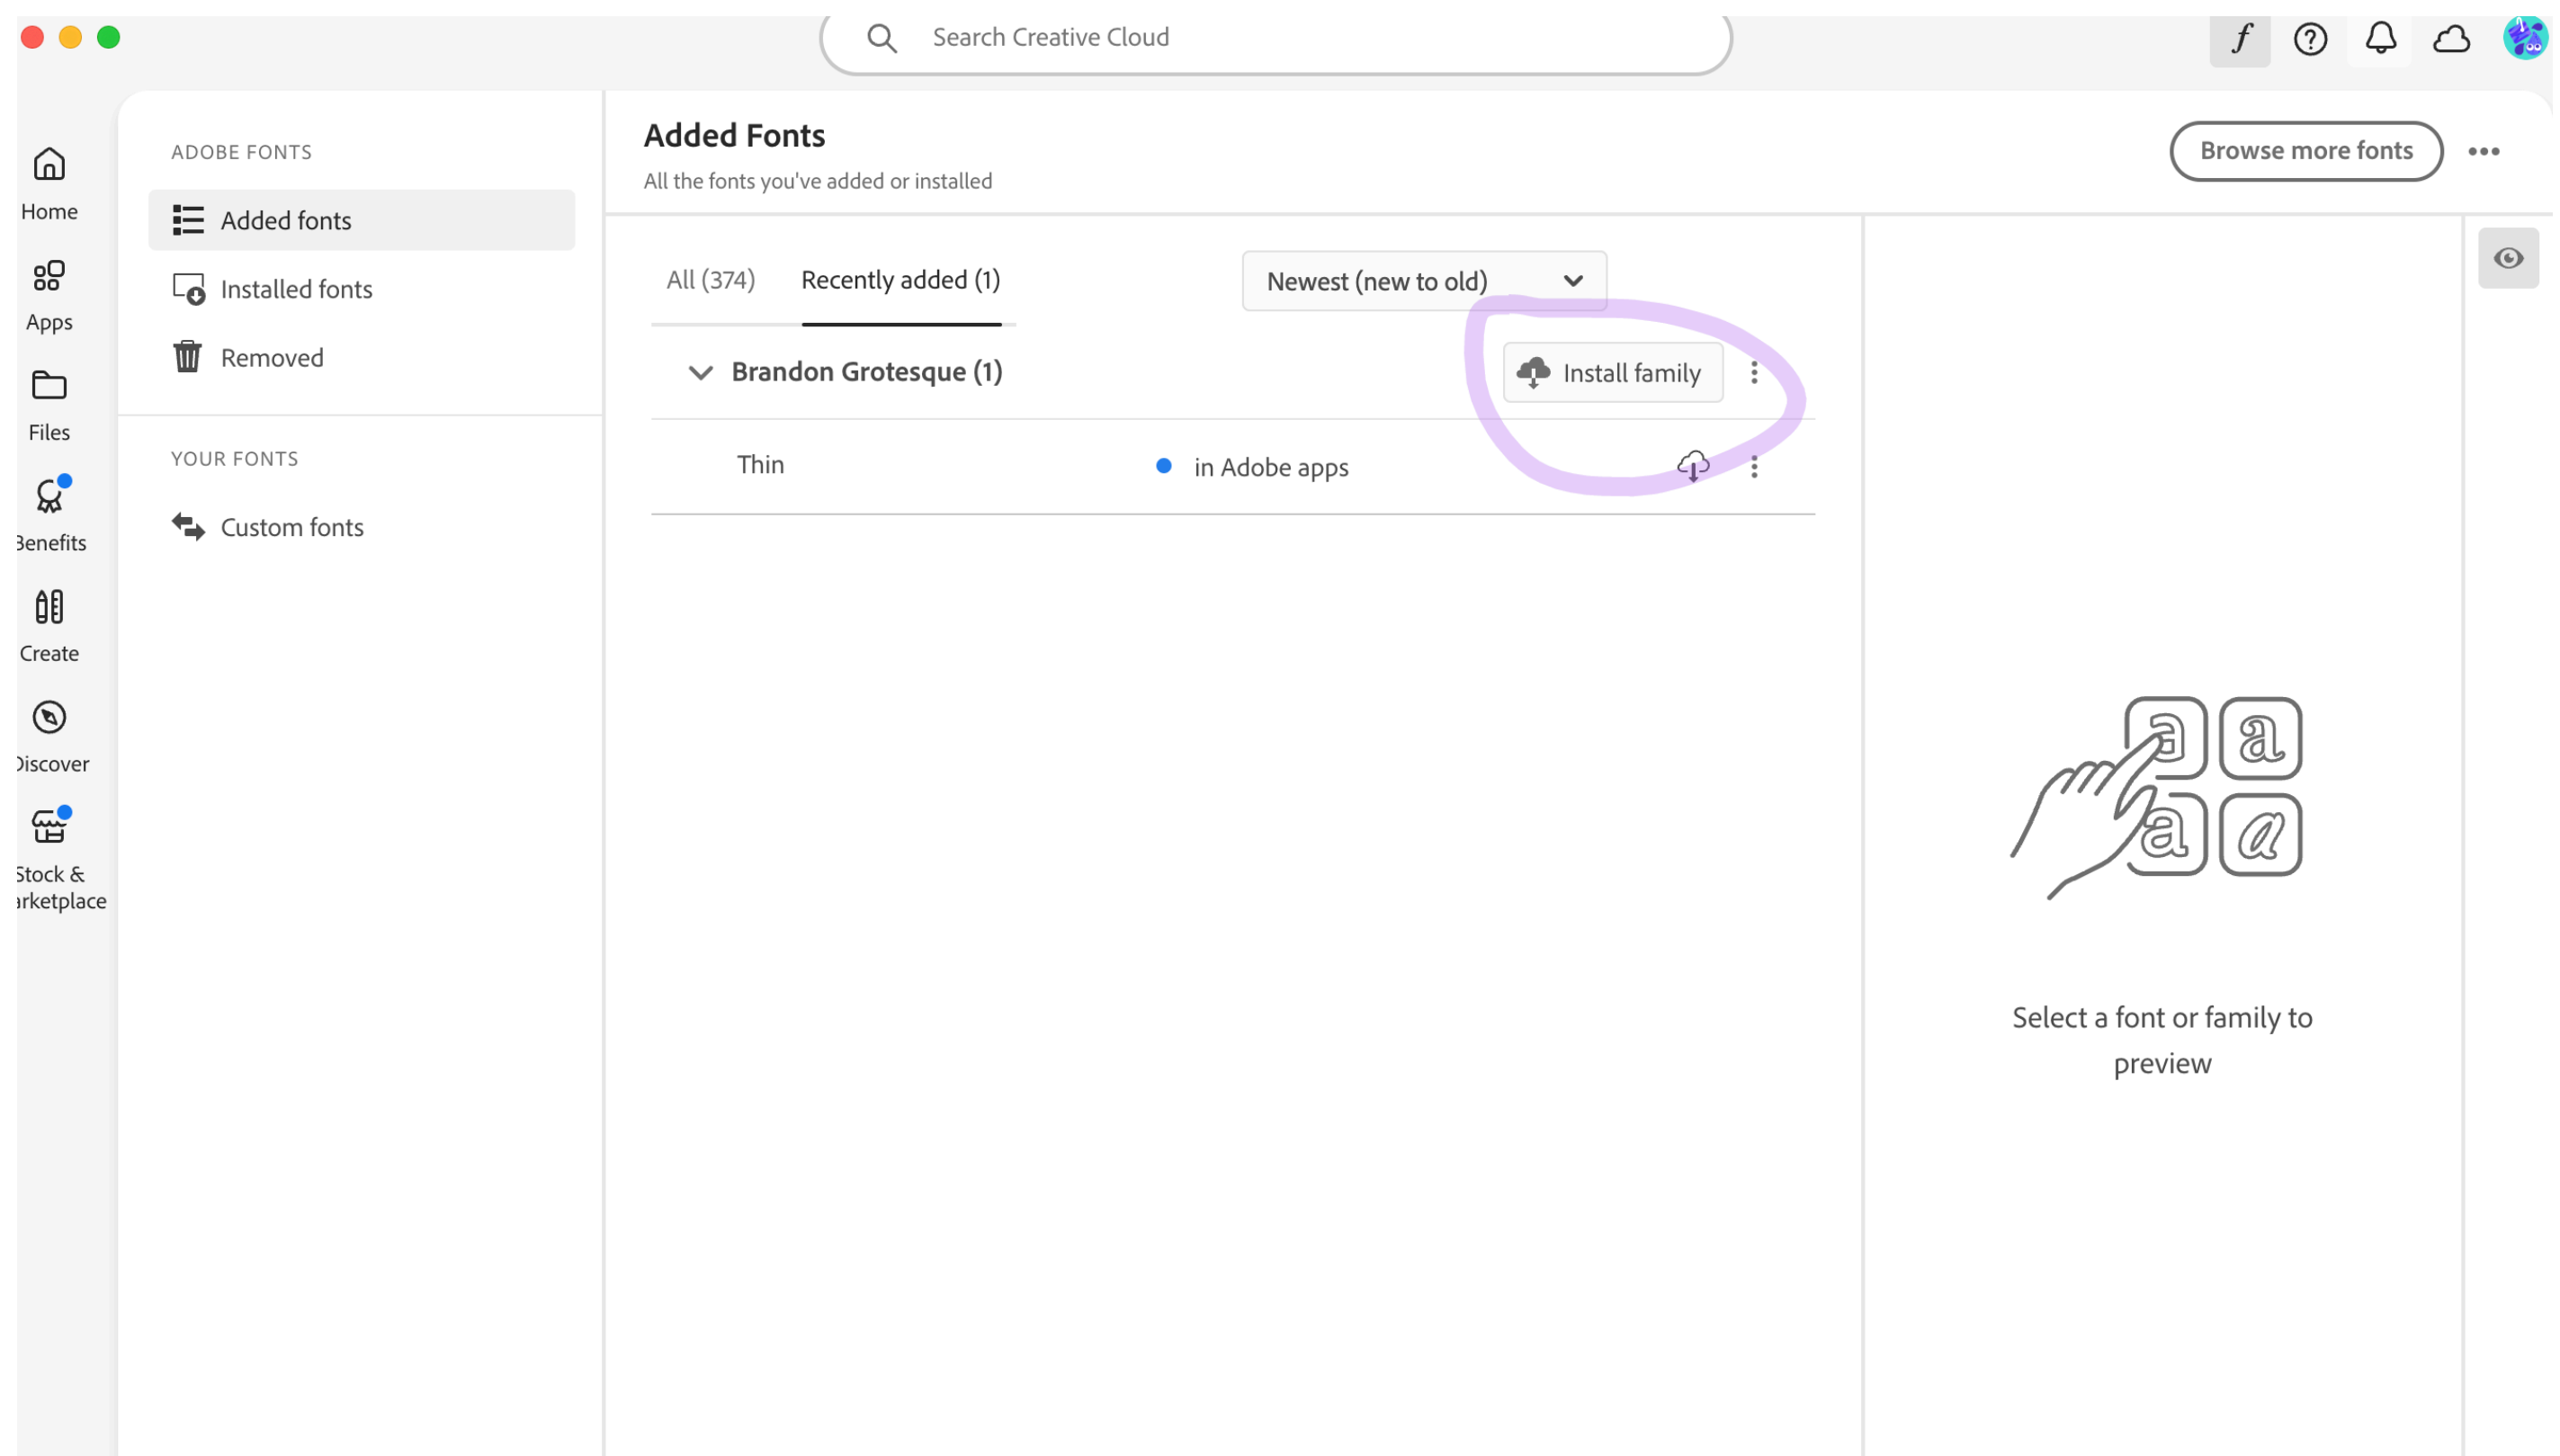

5. When you've successfully downloaded them, you should see this message.

> ✓ Fonts available in your Adobe Apps. Manage them in the Creative Cloud App. [Open app] ✕

6. Return to the Adobe cloud on your desktop. And find the recently added tab. When you click on that it should take you to a new screen.

7. In the recently added tab, press the "Install Family" button to install the font to use in your adobe apps and in other applications.

8. You should see a screen like the one below. Perfect! You're all set!
