Among students who reported a high school class ranking, just under sixty-two percent were in the top quartile of their high school graduating classes. The mean score for undergraduates for the SAT is 1095 and 23 for the ACT examination. Approximately 17% of undergraduates have declared a major in Biology, while an additional 17% have declared Nursing and seven percent Psychology.

Test Score Calculations

For students with both an SAT and ACT score, only one score is counted. The ACT score is converted into the equivalent SAT score and compared to the actual SAT score, and only the higher is retained. Additionally, for students with multiple SAT test scores, the highest verbal and math subscores (from any test date) are added to get the student's final SAT score.

Prior to Fall 2007, SAT scores were reported using Recruitment PLUS. Recruitment PLUS converted all ACT scores to an equivalent SAT score, and included the converted scores in the final mean.

Therefore, the number of SAT scores plus the number of ACT scores does not equal the total class size.
2. The highest SAT is compared to the highest ACT and only the better score is retained.
